The Ripley News expresses itself glad to see that an effort is being made to compromise the suit which has been commenced against the county of Lau-derdale in the United States circuit court at Memphis, by the holders of the bonds issued by the county to the Paducah and issued by the county to the Paducah and Memphis railrond company. The basis of the compromise, as we understand it, is about as follows: Gen. Y. C. Humes, the attorney representing the railroad company and also the holders of the bonds, proposes that if the magistrate composing our county court will sign a guarantee binding themselves to elect a tax-collector at the July term of the quarterly court and proceed at once to collect the taxas necessary to pay off the bonds and interest as provised for in the original contract, all the suits will at once be dismissed and work will be resumed on the road. First Circuit Court—Heiskell, Judge.

The case of Scooler vs. Avery of also cocupied the time of the court yesterday. If this case be finished, the following on in that gronous array fully wears its faurel crown, E. A. M. THAT HOSE-CARRIAGE. Replevin.

The "Mersheen" Taken from the May-or's Appointees by Writ of It will be remembered that the Arpelal several days ago published the fact that Mayor Loague had turned over the Chelsea hose-carriage to Mike Boyle and three negroes. The chief of the fire department did not deem this action legal, and believing the fire committee alone vested with the authority to appoint firemen and exercise jurisdiction in this department, would not recognize the negroes and Royle. The matter was referred to the fire committee, and this body, with the exception of Jack Waish, Paul Cicalla and Phillips (colored) was of the same opinion. The resolution as of the same opinion. The resolution as acids which enter into the composition arriage has been wrongfully taken from their possession, etc. It will be remem-bered that this hose-carriage belonged to Invincible fire company No. 5, and after the dissolution of this organization feil into the possession, but whether real or constructive we know not, of Julius Holat's widow. About two years ago Marsh Patrick as a member of the Invincible company, replevied the hose-carriage and turned it over to the posseson of the city. Since then no fus has been made about this machine up yesterday, when the writ of replevi was issued upon the affidavit of the above-named plaintiffs, as representa-tives of the invincible fire company. It is stated that in 1860 the above nose carriage was purchased for \$3100, which um was raised by subscription to the Invincible company. In 1863 the regular pay department took charge of the shelby street, and the Invincible company, composed of volunteers, after-ward put it in charge of Julius C. Holst for safe keeping. About eighteen months ago Chief Anderson raised from insurance companies and citizens two hun-dred and fifty dollars, and the city ap-propriated a like sum for the purchase on the carriage, which was then charge of by the fire department.
